

The MediaArtLab team would like to thank Tanya Akhmetgalieva for creating masks to celebrate our 20th anniversary!

The approximate installation time is 5 minutes.

Choose your mask for the party

First step

Installing and Configuring *Snap Camera*

Install *Snap Camera*

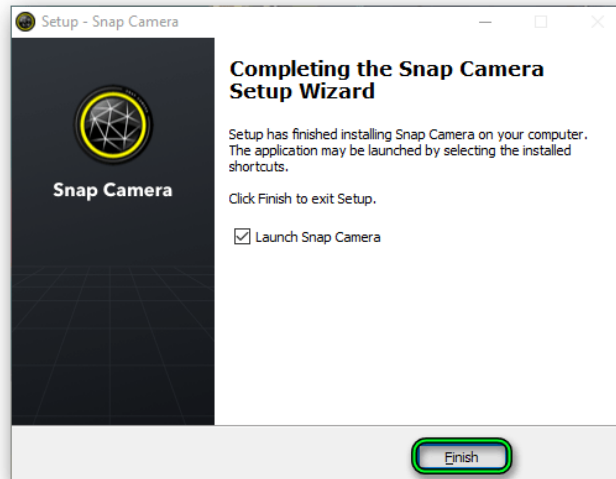

1. Go to the official download page <https://snapcamera.snapchat.com/>.
2. Choose «I have read the Privacy Policy...».
3. Confirm the captcha in the block below.
4. Click *Download for Mac* to download *Snap Camera* for MAC OS or *Download for PC* for Windows.

The screenshot shows the 'Snap Camera License Agreement' page. It contains the following elements:

- Section 1:** A scrollable text area containing the license agreement terms for users in the United States and those outside. It includes the text: 'If you live in the United States when you use Snap Camera (defined below) or are using Snap Camera on behalf of a business with its principal place of business located in the United States, [Snap Inc.'s Snap Camera License Agreement](#) governs your use.' and 'If you live outside the United States when you use Snap Camera, or if you are using Snap Camera on behalf of a business with its principal place of business outside the United States, [Snap Group Limited's Snap Camera License Agreement](#) governs your use.' It also states: 'Please print a copy of this Agreement and keep it for your reference.' and 'SNAP INC. SNAP CAMERA LICENSE AGREEMENT'.
- Section 2:** A checkbox with a checkmark and the text: 'I have read the [Privacy Policy](#) and agree to the [Snap Camera License Agreement](#) and the [Terms of Service](#).' This section is highlighted with a green box and a circled '1'.
- Section 3:** A text input field labeled 'Email:'.
- Section 4:** A reCAPTCHA widget with the text 'Я не робот' and 'reCAPTCHA'.
- Section 5:** Two buttons: 'DOWNLOAD FOR MAC' and 'DOWNLOAD FOR PC'. These buttons are highlighted with a green box and a circled '3'.

5. Save and run the proposed file.

If you are using Windows, to install, click on the *Next* button four times, then on *Install* and finally on *Finish*.

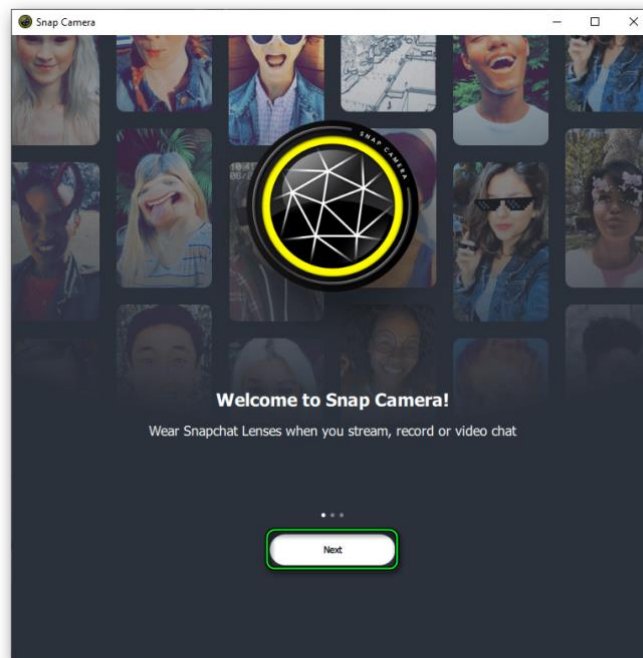

The program will open automatically.

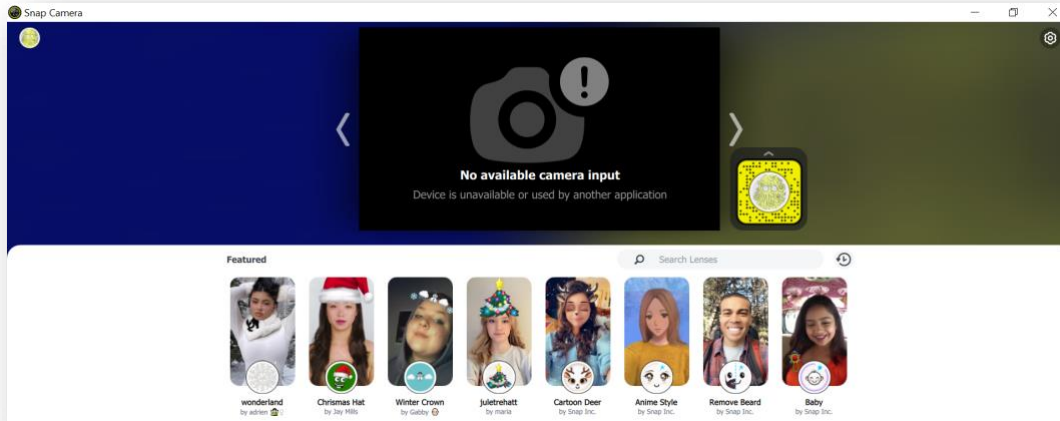

For Mac OS, drag the *Snap Chat* thumbnail to the *Applications* directory, open it from the general list of programs, and allow it to launch in the security window.

Set up the program

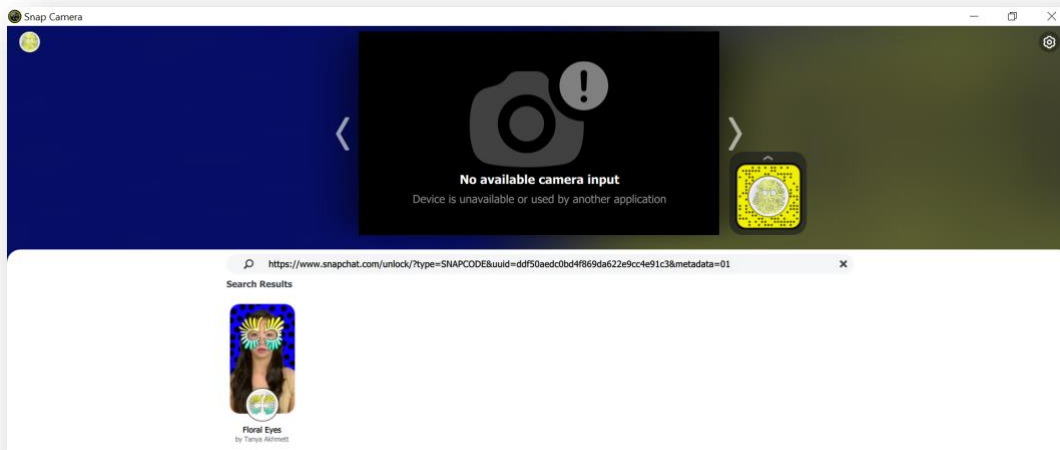

1. In the main window, click *Next* twice and then *Finish*.

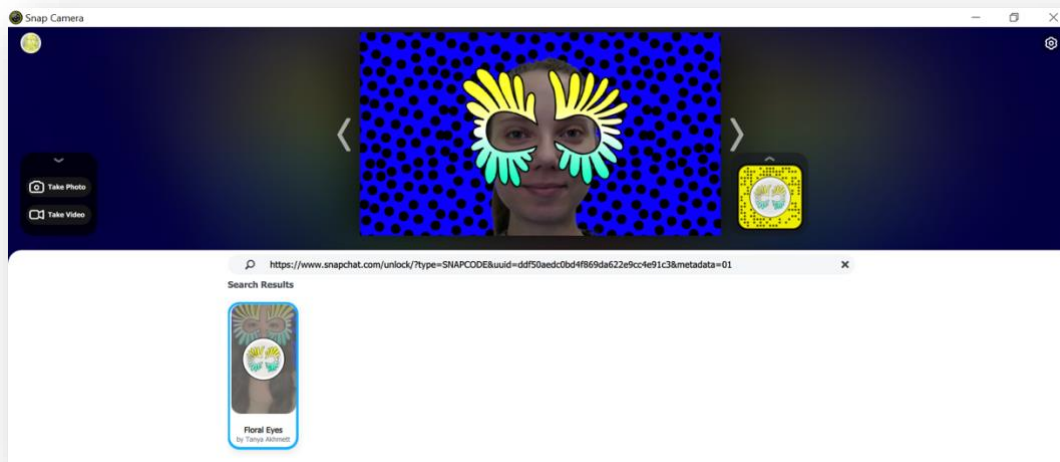

2. The camera itself is displayed at the top of the page, and the masks below.
3. Below the window for the camera, there is a column for searching masks *Search Lenses*.

4. In this window, insert the link corresponding to the mask (*see page 1*). Press *Enter*.

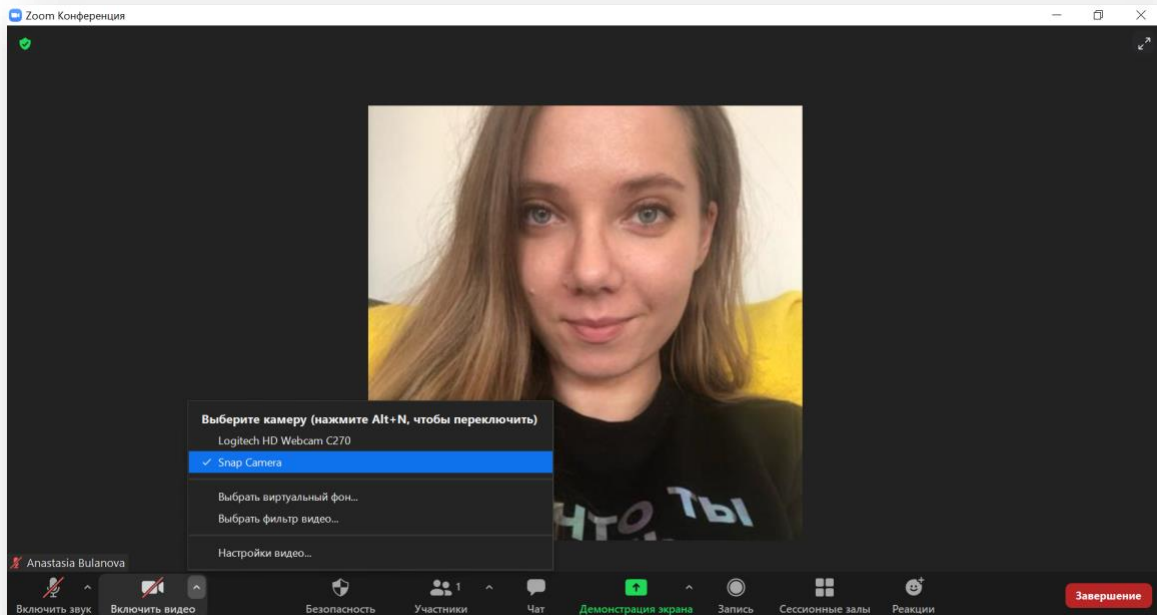

5. Click on the loaded mask under the camera window. The selected mask is on!

Just give it two more minutes for setting up, and all participants in the ZOOM conference will see you in a mask!

Second step Work at ZOOM

1. Go to the ZOOM conference.
2. On the bottom panel, find the *Video* button and a small arrow next to it. Click on the arrow. Choose *Snap Camera*.

3. Turn on the camera. Now all conference participants see you in a festive mask!

***Have fun,
MediaArtLab team***
